

## Award Winners in Student Presentations (Session No. 3-2, 7-1)

Name	Affiliation	Title
<b>Best speaker award</b>		
<b>Christopher Rackauckas</b>	University of California, Irvine	The Hidden Information in Biological Randomness
<b>Almeida Mariana</b> フロンティア 医科学	University of Tsukuba	Inhibition of House Dust Mite-induced MAP Kinase Activation in Dendritic Cells by Allergin-1 Immunoreceptor
<b>Outstanding speaker award</b>		
<b>Chih-Yao Liu</b>	University of Tsukuba	Genetic Analyses of Molecules and Neural Circuits Regulating REM Sleep
<b>Laís Balico</b>	University of Sao Paulo	Expression of Mitochondrial NAD <sup>+</sup> Transporter from <i>Aspergillus fumigatus</i> Recovers the Metabolism in HEK-293 Cells with Citrin Gene Knockdown
<b>Weizhe Lu</b>	University of Tsukuba	A Global Characterization of the Translational Program in Cardiac PRMT1-deficient Mice by Ribosome Profiling
<b>Yi-Lan Chen</b>	National Taiwan University	How mRNA Wraps the 30S at the Beginning of Translation
<b>Best poster award</b>		
<b>Jong-Chan Hwang</b>	University of Tsukuba	Roles of NRBP1-THG-1 Interaction in $\beta$ -Catenin/WNT Signaling Pathway
<b>Christina S. Andrea</b> フロンティア 医科学	University of Tsukuba	Sense of Coherence, Stress and Mental Health of International Students in Japan: a Six-month Follow-up
<b>Outstanding poster award</b>		
<b>Vishal Gor</b>	University of Tsukuba	Survival of <i>Staphylococcus aureus</i> Under Dry Conditions: Involvement of Expression in Sub-population Genes
<b>Eisuke Imura</b>	University of Tsukuba	Identification and Characterization of Neurons Innervating the Steroid Hormone Biosynthesis Organ in <i>Drosophila</i>
<b>Hitomi Kimura</b>	University of Tsukuba	Intake of Potato and Mortality From Cardiovascular Disease in Community-based Population
<b>Riku Suzuki</b>	University of Tsukuba	The Screening of New Function of Mucin-Type O-glycan
<b>Po-Yu Liao</b>	National Taiwan University	Light mediate the oxytocin release in mouse
