

Master's Program in Medical Sciences career path seminar 2012

“Career vision and leadership training”

～A leader behaves like a leader before becoming one～

Date: Saturday, September 8, 2012 (10 am – 5 pm)

Venue: University of Tsukuba

Health and Medical Science Innovation Laboratory Bldg. 8F

Program Coordinator: Mr. Satoru Someya

Guest lecturer:

Mr. Yoshiyasu Kondo (Creative producer)

Mr. Takuya Naruse (Representative director and producer of Willforward inc.)

The Master's Program in Medical Sciences holds a job hunting support & career path seminar twice yearly entitled “Job hunting support especially for graduate students”.

This career path seminar was titled “Career vision and leadership training” and emphasized a different point of view such as, expansion of self potential /reinforcement of consciousness as a next generation leader when you consider your own career path.

We invited Creative Producer Yoshiyasu Kondo, who has produced many events and set “THINGS” up, and Willforward Inc. Representative Director/ Producer Takuya Naruse as lecturers.

To make things easy to understand, Mr. Kondo included concrete examples and laughter to the explanation about “3 steps to become a lively and sparkling talented person”: ①Circle of possibility ②Circle of action ③Circle of influence.

As for Mr. Naruse's lecture, he gave instructions for leadership training with actual body movement, and doing it we were able to experience how difficult it is to put things into action.

Many students, who participated in this seminar got more excited as they got to know the true nature of work, and realized that their passive attitude had

changed in the direction of accepting a reform of their awareness.
