

# 第363回つくば分子生命科学セミナー

TSUKUBA MOLECULAR LIFE SCIENCE SEMINAR

Title : Stem Cell-Based Modulation of Heart Function

Speaker : Dr. Bernd K. Fleischmann

Professor and Director, Institute of Physiology I  
Life & Brain Center, University of Bonn

Date : November 16<sup>th</sup>, 2012 (Fri) 17:00-18:30

Place : Building for Institutes of Medicine  
Seminar Room 411

Abstract :

Prof. Fleischmann is working on biology of cardiomyocytes. Recently, he is trying to generate functional cardiomyocytes and heart pacer-maker cells from Embryonic Stem (ES) cells or iPS cells for clinical use. In this seminar, he will talk about recent results of his experiments.
