

2021 Research Presentation and Discussion

Thomas Mayers (mayers.thomas@gmail.com)
Hiroyuki Suzuki (h-suzuki@md.tsukuba.ac.jp)

For HBP, HX and Biomedical Sciences students

Term: Apr ~ July 2021 (Spring A B C) , Wednesday, 10:10 ~ 11:25 (2nd period)

Room: Medical building 305 (医科学4F棟305)

Date		Title	Room	Presenter	Chair
Apr. 14	Wed	Introduction	Medical building 305	Thomas Mayers	
Apr. 21	Wed	Bone morphogenetic protein signaling mediated by ALK-2 and DLX2 regulates apoptosis in glioma-initiating cells	Medical building 305	Erna Raja	
Apr. 28	Wed	Role of SIK3 in energy metabolism	Medical building 305	Patricia Seoane	
May. 12	Wed	Inter-organ communication in <i>Drosophila</i> : Neuropeptide F acts as the incretin-like hormone	Medical building 305	Yuto Yoshinari	
May. 19	Wed	Serotonergic system modulated cardiovascular expressions evoked by the lateral habenula in aversive stress	Medical building 305	Tri Huu Doan	
May. 26	Wed	Activation of a cytoprotective redox signaling by a herb extract.	Medical building 305	Yumi Abiko	
June. 2	Wed	Target disruption of entire <i>Cables2</i> locus causes early mouse embryonic lethality.	Medical building 305	Tra Thi Huong Dinh	
June. 9	Wed	Development of a machine learning-assisted genotyping method to validate genome editing outcomes	Medical building 305	Akihiro Kuno	
June. 16	Wed	Underneath of neuroscience and sleep research	Medical building 305	Olga Malyshevskaya	
June.23	Wed	TBA	Medical building 305	Thomas Mayers	

Evaluation

Score

Discussion Attendance: 4 100 Suzuki

Apr.17 – June.5 Question & Discussion (0 – 6)

Chair (3 – 6)

Presenter selection (5)

Delay (–1 to –4)

Conference, HBP activity
