July 30, 2014

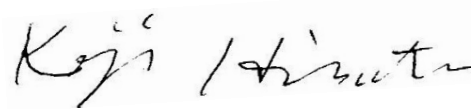

Dear Students,

Welcome to the Summer Research Program in Tsukuba 2014. This is our fifth Summer Research Program to be held in Tsukuba, which lasts from July 30 to August 10. This program is part of our efforts to globalize the University of Tsukuba and aims to allow students from other countries learn about our researches, to facilitate communication between students from different countries and to promote our global presence. This year, we welcome students from Vietnam, Taiwan, Indonesia, France, UK and Hungary, who will be assigned to a lab within the campus of the Faculty of Medicine or Faculty of Life and Environmental Sciences. The students take part in research, attend lectures and present their research results on the final day. Thus this two-week Summer Research Program is an intensive course.

The Summer School, however, is not all about work. Indeed, we plan to have welcome and farewell parties on the first and last days of the program, which facilitate communication between the participating students and the faculty with diverse backgrounds. A weekend tour is also planned to provide the students with opportunities to learn more about each other as well as about Japanese culture. In short, the students are expected to work hard and play hard to get the most out of this program in the next two weeks. I sincerely hope that the Summer Research Program becomes an unforgettable experience for all the participating students.

Sincerely,

Koji Hisatake
Organizer of Summer School
Professor of the Faculty of Medicine
University of Tsukuba

Schedule

<i>Day</i>	<i>Time</i>	<i>Activity</i>	<i>Place</i>
Wednesday July 30	9:00 -	Lab activity	Assigned lab
	16:30 - 18:00	Orientation	Medical bldg. 2 nd floor (Rm204)
	18:00 - 19:30	Welcome Party	Innovation bldg. 8 th floor
Thursday July 31	9:00 - 10:00	Lecture by Professor Han-Yi E. Chou	Medical bldg. 2 nd floor (Rm204)
		Lab activity	Assigned lab
Friday August 1		Lab activity	Assigned lab
Saturday August 2		Lab activity	Assigned lab
Sunday August 3	8:30 - 20:30	Cultural Tour	Mt. Tsukuba, Yasei-no-Mori

<i>Day</i>	<i>Time</i>	<i>Activity</i>	<i>Place</i>
Monday August 4	9:00 - 10:00	Lecture by Professor Enbo Ma	Medical bldg. 2 nd floor (Rm204)
		Lab activity	Assigned lab
Tuesday August 5		Lab activity	Assigned lab
Wednesday August 6	9:00 - 11:00	Lecture by Mr. Brian Purdue	Medical bldg. 2 nd floor (Rm204)
		Lab activity	Assigned lab
Thursday August 7		Lab activity	Assigned lab
Friday August 8	9:00 - 17:00	Presentation Rehearsal (15 min / Students)	Innovation bldg. 8 th floor* ^a
			Medical bldg. 2 nd floor (Rm204)* ^b
		Lab activity	Assigned lab
Saturday August 9	8:00 – 17:00	Presentation Session	Innovation bldg. 8 th floor
	17:30 - 20:00	Farewell Party	Medical Cafeteria 1 st floor
		Award Ceremony	
Sunday August 10		Departure	

*There are two rehearsal rooms:

a : Students from France, Hungary and Vietnam

b : Students from UK, Indonesia and Taiwan.

Events

Wednesday July 30

Orientation at Medical bldg. 2nd floor (Rm204)

16:30	Opening Remarks	Professor Koji Hisatake
	Greeting from Students	Teaching Fellows
16:45	Outline of Program	Kazuki Sato
17:00	Lecture for DNA Work	
17:30	Administrative Paperwork	International Office Staffs

Welcome Party at Innovation bldg. 8th floor

18:00	Welcome Remarks	Professor Osamu Ohneda
	Toast	Professor Yasunori Kanaho
19:30	Closing Remarks	Professor Satoru Takahashi

Sunday August 3

Cultural Tour at Mt. Tsukuba and Yasei-no-Mori

8:30	Departure from Toyoko-INN
8:45	Departure from Daigaku-kaikan
Morning	Mt. Tsukuba
Afternoon	Yasei-no-Mori
20:30	Arrival at Toyoko-INN
20:30	Arrival at Daigaku-Kaikan

*In case of heavy rain

8:30 – 19:00 Other activities

Saturday August 9**Presentation Session at Innovation bldg. 8th floor**

8:00	Opening Remarks	Professor Koji Hisatake
8:10 - 10:00	Session 1	
10:10 - 12:00	Session 2	
12:10 - 12:40	Luncheon Seminar	Professor Tang-Long Shen
12:50 - 14:30	Session 3	
14:40 - 16:20	Session 4	
16:30 - 16:50	Commencement Ceremony	Professor Osamu Ohneda
16:50	Closing Remarks	Professor Shigeru Chiba

Farewell Party and Award Ceremony at Medical cafeteria 1st floor

17:30	Opening Remarks	Professor Yoshito Kumagai
	Presentation Award Ceremony	Professor Koji Hisatake
20:00	Closing Remarks	Professor Mitsuyasu Kato

Guest Speakers

Han-Yi E. Chou, Ph.D., Assistant Professor

Graduate Institute of Oral Biology, School of Dentistry,
National Taiwan University

Research Interests

The oral cavity is characterized by its continued exposure to physical and chemical threats. My laboratory is interested in how cells respond to environmental stress to maintain homeostasis and, if this fails, how it conducts to pathological outcomes such as cancer. Our first focus is to investigate the molecular basis linking chronic physical stress responses to the selective enhancement of stemness properties in the cancerous tissue. The second focus of our group is to study how cells react to and interact with nanomaterials, paying special attention to the diverse internalization and cellular confinement pathways that can result from different surface modifications on the nanomaterial. We hope our studies to contribute with basic biology insights for translation into the tailored design of nanovectors in future biomedical applications.

Tang-Long Shen, Ph.D., Associate Professor

Department of Plant Pathology and Microbiology,
National Taiwan University

Research Interests

1. Cell biology (Cell migration, proliferation, and development)
2. Signal transduction (Integrin and growth factor signaling)
3. Cancer biology (Breast and GI related cancers)
4. Molecular Plant-Microbe Interactions (RNA silencing and viroid)

Presentation Course

Presentations in English are an important and exciting part of international science, so in our summer school the final day is a simulation of a conference in which you will give a presentation that will be judged and hopefully awarded a prize. Two native English speaker professors specialized in teaching scientific presentations in English will personally coach you over three days to prepare you for your star performance on the fourth day and so that you can take home improved presentation and English skills.

Presentation Course Schedule

August 6 (Wed) 9:00 - 11:00, Medical bldg. 2nd floor (Rm204)

Lecture: How to give a good presentation

Coaching - We will be available all day till 17:30 to coach you one on one in MECC (Medical English Communications Center) Gakkei Tou 473

August 7 (Thu) 9:00 - 12:00, 13:00 - 16:00

Coaching – Professor Brian will be available to help you. E-mail him for an appointment.

August 8 (Fri) 9:00 – 12:00, 13:00 – 17:00

Innovation bldg. 8th floor and Medical bldg. 2nd floor (Rm204)

Rehearsal and Final Coaching - during the day you must come once individually to the conference venue, for about 15 minutes between 9:00 – 19:00 to do a rehearsal of your presentation and get some final private coaching

August 9 (Sat) 8:00 – 17:00, Innovation bldg. 8th floor

Conference: You will give your presentation - 6 minutes plus 2 minutes for discussion - in front of everybody including the judges

Advice

From the beginning consider what pictures you will need to make good slides and check a dictionary for the pronunciation and usage of words that will be important in your presentation. Tuning in to another person's accent takes time, but the more you talk with each other and listen to each other the easier it gets. So, be patient and listen; and don't be shy, talk.
