

# Master's/Doctoral Program in Life Science Innovation

T-LSI Special Seminar

**Prof. Hiromitsu Nakauchi**

(School of medicine, Stanford  
University/The Institute of Medical  
Science, The University of Tokyo)

## **Translating Stem Cell Research: From Academia to Industry**

*Prof. Nakauchi is a world authority on the field of stem cell research. In this talk, he will introduce induced pluripotent stem cell (iPSC) technology-based projects aiming at clinical use.*

**November 21, 2022, Mon, 3:00pm-4:30pm  
(estimated)**

**Venue : 8F, Health and Medical Science  
Innovation Laboratory, University of Tsukuba**

※Students, faculties and staffs outside T-LSI program are welcome to attend. The seminar will be given in English.
