

RESEARCH STUDIO 2024 Pitch Event

12th Oct. SAT 10:00–17:00

● **Greetings**

Ministry of Health, Labour and Welfare

● **Keynote Lecture**

“Ecosystem and successful cases”
Dennis Abremski (UC San Diego)

● **Pitch Session**

Session 1: 2024 teams

Session 2: Alumni startups

● **Round Table Discussion**

“Expectations from Venture Capitals and
Collaboration with Academia”

Research Studio is an overseas expansion support program for medical startups from academia.

Guidance teams are formed to meet individual needs, and development and business plans are formulated. In addition, lecturers and mentors in each specialized field based on the characteristics of each team, as well as clinicians and experienced start-up professionals, act as facilitators and tutors to support the teams and explore the possibility of commercialization with an eye to international expansion.

This year, we will be holding a pitch event for pharmaceuticals and medical devices.

Research Studio Alumni teams will also be taking the stage to give their pitches.

In addition, we will be holding a panel discussion on the current state of the ecosystem for supporting startups and its future development, from the perspectives of venture capitals and academia.

Venue

CIC Tokyo

(Toranomon Hills Business Tower 15F)

Research Studio Secretariat

Tsukuba Clinical Research and Development
Organization (T-CReDO), University of Tsukuba
